

**About Epsilon Carbon:**

Epsilon Carbon Private Limited was established in 2010 with the vision to become the partner of choice and trust in the carbon derivatives market. As the leading global manufacturer of coal tar derivatives, we are focused on delivering the best quality products, manufactured from the byproducts of steel industry and build a consistent value chain of uninterrupted supply. As an organization, we are driven by the values of safety, sustainability, innovation, and integrity in all our business practices. Headquartered in Mumbai and complimented by our 320,000 TPA state-of-the-art manufacturing facilities in Bellary, Karnataka and Jharsuguda, Odisha. We currently produce coal tar derivatives such as impregnated pitch, binder pitch, carbon black oil, anthracene oil, naphthalene, etc. We supply our products to the Aluminum, Tyre, Graphite, Speciality and Construction chemicals, Dyes and Pigments, and other industries. We have our customer base spanning across 26 countries and growing.
